

SELECTING THE RIGHT PILE DRIVER FOR YOUR BUSINESS

From driving piles for solar projects to installing fencing and guardrails, compact pile drivers are the nimble and quick way to put a stake (pile) into the ground. Vermeer offers a range of pile drivers designed to meet your everyday needs.

To determine which Vermeer pile driver is right for you, take a look at this chart of common jobsite requirements and see which best matches your needs.

	PD5 PILE DRIVER	PD5R PILE DRIVER	PD10 PILE DRIVER	PD10R PILE DRIVER
				
You are installing piles on distributed (point-of-use) solar projects.	●	●		
You're doing utility-scale solar projects.		●	●	●
You are installing fencing or guardrails that do not need to be perfectly plumbed or spaced evenly.	●			
You do not have a machine onsite to assist with assembling/dis-assembling the mast.	●	●		
You need a machine that can drive piles up to 20 ft (6.1 m) long.			●	●
You prefer a seated operating station over remote or stand-beside controls.			●	
You prefer a remote-control pile driver.		●		●
You need a machine with auto plumb and the ability to work with GPS technology.		●	●	●
You would like to transport more than one pile driver on the same trailer.	●	●	●	●
You travel frequently and would like dealer support no matter where the next job takes you.	●	●	●	●

This chart will help you choose the right Vermeer pile driver for your needs.

AT A GLANCE	HORSEPOWER	MAXIMUM OPERATING HEIGHT	MAXIMUM OPERATING WEIGHT
PD5 and PD5R	48.8 hp (36.4 kW)	19.8 ft (6 m)	10,380 lb (4,708 kg)
PD10 and PD10R	49 hp (36.5 kW)	24.9 ft (7.6 m)	15,980 lb (7,248.4 kg)
